Community Bench Project

Did you know that we are working on collecting *400 pounds of caps* so that we may have a bench built for our school?

That's a lot of caps! The goal is to collect 400 pounds by March and the caps will be sent in to be made into a bench. This project (hosted by the Claypool Elementary Student Council) is an exciting activity for all of our students. They would love to see how caps can be turned into something as impressive as a bench to sit on! Will you help us by donating caps? All caps that you collect can be dropped off in the front office. We have already collected 85 pounds and only have 315 pounds to go! Any and all donations would be greatly appreciated!**

Click on the pictures for a list of accepted caps. We also have pictures of what 85 pounds of caps looks like!
